

**STEADIBONDE<sup>TM</sup>**

*Engineered for Endurance*

In today's fast-evolving construction landscape, durability, efficiency, and reliability are no longer optional - they are essential. Every structure, whether residential, commercial, or industrial, demands materials that not only meet structural requirements but also enhance performance, longevity, and safety.

**STEADIBONDE** is designed to meet these everyday construction needs with precision and consistency. From improving bonding strength and waterproofing to enhancing surface protection and repair, Steadibonde construction chemicals play a vital role across all stages of construction. Whether it's new builds, renovations, or maintenance work, our solutions are engineered to support stronger adhesion, faster application, and long-lasting results.

In an industry where quality defines success, Steadibonde stands as a dependable partner - ensuring that every project is built on a foundation of **STRENGTH, RESILIENCE, and TRUST.**

## Our Vision

To become a trusted leader in construction chemical solutions by delivering innovative, reliable, and high performance products that strengthen modern infrastructure and support sustainable building practices worldwide.

## Our Mission

At **STEADIBONDE**, we deliver reliable and high-performance construction chemicals that enhance bonding, durability, and protection - supporting efficient, everyday building needs with consistent quality and innovation. We are committed to empowering builders and professionals with practical solutions that ensure long-lasting and dependable results.

# SteadiBonde ProMix

## Description

Liquid integral waterproofing admixture for concrete and mortar.

Conforms IS:2645

## Area of Application

- ✓ For all types of Concrete & Mortar
- ✓ Plastering work on all brick walls
- ✓ Damp proofing of basement structures
- ✓ Repairing works of existing construction

## Advantage

- ✓ Can be used with all types of Portland & slag cement
- ✓ Shrinkage Free
- ✓ Smooth Finish
- ✓ Help to make a water tight Concrete or Mortar
- ✓ Low Rebound loss
- ✓ Economical

## Dosage

200gm per bag of 50kg cement

## Pack Size

1 kg, 5 kg, 10 kg & 20 kg

## Shelf Life and Storage

18 Months from the date of manufacturing.

Store in a cool, dry place away from direct sunlight

# StediBonde **Latex Ultra**

## Description

High performance **SBR Latex** for Waterproofing & Repair

## Area of Application

- ✓ Roof waterproofing
- ✓ Toilet Waterproofing
- ✓ Podium, water bodies waterproofing
- ✓ To make polymer mortar
- ✓ Old & new construction bonding
- ✓ Waterproof Plaster

## Advantage

- ✓ Multipurpose Application
- ✓ Works against saltpeter action
- ✓ Very good adhesion with masonry surface
- ✓ Fight against chemical attack
- ✓ Reduces water, cement ratio in concrete & mortar

## Dosage/Coverage

For waterproofing & bond coat, **Latex Plus : Water : Cement = 1:4:7** will cover 70-80 sqft per kg in 2 Coats.

For Polymer mortar, **Latex Plus : Water = 1 : 4**

## Pack Size

1 kg, 5 kg, 10 kg & 20 kg

## Shelf Life and Storage

18 Months from the date of manufacturing. Store in a cool, dry place away from direct sunlight

# StediBonde **Super Fix**

## Description

2 components Epoxy based bonding agent for Old & New Concrete joint.

## Area of Application

It is a bonding agent for old & new concrete joint portion during repairing & casting of roof slabs, retaining walls, water tanks, columns, beams etc.

## Advantage

- ✓ Long pot life & open time allows sufficient time for placement of new concrete.
- ✓ Can be applied on moist surface
- ✓ After mixing the material must be used within 4 hours

## Dosage/Coverage

0.6kg covers 20 sqft

## Pack Size

0.6 kg & 1.2 kg

## Shelf Life and Storage

12 Months from the date of manufacturing.

Store in a cool, dry place away from direct sunlight

# StediBonde **No Rust**

## Description

Acid base liquid for removing Scale & Rust from Metal

## Area of Application

- ✓ New & Old reinforcement in construction
- ✓ For repairable steel structure
- ✓ Variable Steel structures

## Advantage

- ✓ Remove rust from metallic structure
- ✓ Easy to apply with brush. Spray gun and Cotton
- ✓ Prevent further rusting

## Dosage/Coverage

150 - 200 gm/10 ft<sup>2</sup> in two coats (Depending on surface conditions)

## Pack Size

250 gm, 500 gm, 1 kg & 5 kg

## Shelf Life and Storage

18 Months from the date of manufacturing.

Store in a cool, dry place away from direct sunlight

# StediBonde ProMix Advance

## Description

Multi polymer based *Liquid Premium* integral waterproofing admixture for concrete and mortar.

## Area of Application

- ✓ For all types of Concrete & Mortar
- ✓ Plastering work on all brick walls
- ✓ Damp proofing of basement structures
- ✓ Repairing works of existing construction

## Advantage

- ✓ Can be used with all types of Portland & slag cement
- ✓ Shrinkage Free
- ✓ Smooth Finish
- ✓ Reduce moisture absorption as much as 90%
- ✓ Low Rebound loss
- ✓ Economical

## Dosage/Coverage

150ml for 50kg bag of cement

## Pack Size

1 kg, 5 kg, 10 kg & 20 kg

## Shelf Life and Storage

18 Months from the date of manufacturing.

Store in a cool, dry place away from direct sunlight

# StediBonde **Damp Free**

## Description

High performance Acrylic Polymer for Damp protection, Waterproofing & repair.

## Area of Application

- ✓ Roof waterproofing
- ✓ Toilet waterproofing
- ✓ Damp proofing of wall and affected areas
- ✓ Repairing works of existing construction

## Advantage

- ✓ UV resistance
- ✓ Work against saltpeter action
- ✓ Very good adhesion with masonry surface
- ✓ Damp protection for a long time
- ✓ Fight against chemical attack

## Dosage/Coverage

For Waterproofing & Bond Coat – Damp Free : Cement = 2 : 3, will cover approx. 50-60 sqft in two coats containing 3 kg *Damp Free*.

For Polymer Mortar – Damp Free : Water = 1 : 3

## Pack Size

1 kg, 5 kg, 10 kg & 20 kg

## Shelf Life and Storage

18 Months from the date of manufacturing.

Store in a cool, dry place away from direct sunlight
